physics	the physical properties, phenomena, and laws of something / the physical properties and phenomena of something	He studied the physics of radiation.	WN
		The second challenge is rooted in the physics of magnetized plasma flow.	CHA
		Studying physics helps us understand the laws and principles that govern the behavior of the universe and all the physical phenomena within it.	GPT_simple
		The study of physics involves understanding the motion and energy of objects in the universe.	GPT_gdex
soften	make soft or softer / make or become soft or softer	This liquid will soften your laundry.	WN
		The industry was a major contributor to the citys wealth with whale oil mixed with water being used to soften jute so it could be woven.	CHA

WORD	DEFINITION	EXAMPLE	SOURCE
intermolecular	existing or acting between molecules / existing or taking place between molecules	After soaking the dry towel in warm water for a few minutes, she noticed that it started to soften, becoming more pliable and fluffy.	GPT_simple
		She used a fabric softener to help soften the rough towels she had washed.	GPT_gdex
		Intermolecular condensation.	WN
		This kind of analysis can provide some information about the arrangement of acceptor molecules and intermolecular interactions.	CHA
		The intermolecular forces of attraction between the water molecules held the liquid together, giving it its cohesive properties.	GPT_simple
samoan	of or relating to samoa or its people or language or culture / relating to samoa its people or their language	Water's unique properties are due to its intermolecular forces, making it essential for life.	GPT_gdex
		Samoan fishing industry.	WN
		Fourthyear vic students theyre also the only chilean and samoan respectively in the festival and the youngest performers.	CHA
		The traditional dance at the cultural festival was a beautiful display of Samoan music and movement.	GPT_simple
too	in addition / in addition also	The restaurant served delicious traditional Samoan dishes for the cultural event.	GPT_gdex
		He has a Mercedes, too.	WN
		Runs can come quickly too especially if the ball is new and there are gaps in the field.	CHA
		She loves chocolate cake, and she wants some ice cream too.	GPT_simple
microscopic	so small as to be invisible without a microscope / so small as to be visible only with a microscope	We wanted to hike, but it was too rainy to enjoy the outdoors.	GPT_gdex
		Differences were microscopic.	WN
		The only life found in the lake are some microscopic algae that live between certain layers of water within variable depths of the lake.	CHA
		When we looked at the water sample under the microscope, we were able to observe a diverse array of microscopic organisms swimming around, too tiny to be seen by the naked eye.	GPT_simple
		Under the microscope, the intricate details of the microscopic world become marvelously visible.	GPT_gdex
west	to, toward, or in the west / to or towards the west	We moved west to Arizona.	WN
		He faced west and watched the sunset.	CHA
		She traveled west to visit her family in California.	GPT_simple
		The sun sets in the west, painting the sky with hues of orange and pink.	GPT_gdex
wrongfully	in an unjust or unfair manner / in an unfair unjust or illegal manner	People who were wrongfully imprisoned should be released.	WN

		School systems across the country aiming to do their part to improve childhood nutrition and stem the tide of obesity are turning in greater numbers against sugary soft drinks and other junk food.	CHA
		The donuts were incredibly sugary, with a sweet glaze that left a sticky residue on my fingers after just one bite.	GPT_simple
		The cake was too sugary for my taste, but the kids loved it.	GPT_gdex
correct	free from error; especially conforming to fact or truth / free from error in accordance with fact or truth	The correct answer.	WN
		The templates help ensure that the correct information is in fact recorded and stored.	CHA
		The scientist made sure to provide a correct explanation for the experimental results before publishing the research findings.	GPT_simple
		The student revised the essay to ensure all answers were correct before submitting it.	GPT_gdex
gnostic	of or relating to gnosticism / relating to gnosticism	Gnostic writings.	WN
		This search for one answer above all this gnostic quest for an overriding key to history is both dangerous and inimical to conservatism.	CHA
		The scholar's gnostic beliefs shaped her approach to studying ancient texts and interpreting their hidden meanings.	GPT_simple
		The ancient text revealed secret gnostic teachings on spiritual insight.	GPT_gdex
thermal	relating to or associated with heat / relating to heat	Thermal capacity.	WN
		An individual should rely on the use of water alone to prevent heat injury or thermal stress.	CHA
		The thermal conductivity of the metal allows it to quickly transfer heat energy, making it ideal for use in heating applications.	GPT_simple
		The thermal insulation in the walls helped keep the building warm during the cold winter months.	GPT_gdex
bronchial	relating to or associated with the bronchi /	Bronchial pneumonia.	WN

WORD	DEFINITION	EXAMPLE	SOURCE
	relating to the bronchi or bronchioles	The medical term for lung cancer is bronchial carcinoma.	CHA
		The doctor conducted a thorough examination of the patient's bronchial tubes to check for any signs of inflammation or obstruction.	GPT_simple
		He suffered from bronchial asthma, causing inflammation in the tubes that carry air to the lungs.	GPT_gdex
growth	something grown or growing / something that has grown or is growing	A growth of hair.	WN
		They grew the bacteria took a portion of the growth and added that to a new tube with fresh media.	CHA
		The growth of the business has been impressive, with a significant increase in sales and a growing customer base.	GPT_simple
		The city's rapid growth led to the construction of new schools and hospitals.	GPT_gdex
flare	a sudden outburst of emotion / a sudden burst of intense emotion	She felt a flare of delight.	WN
		Something about his mild responses caused a flare of anger with anne.	CHA
		After hearing the news of her promotion, Maria's face lit up with a bright flare of joy and excitement.	GPT_simple
		His temper could flare up without warning, causing tension in the room.	GPT_gdex
nationwide	extending throughout an entire nation / extending or reaching throughout a whole nation	It was broadcast nationwide.	WN
		A nationwide hunt.	CHA
		The company's products are now available for purchase nationwide, reaching customers in every corner of the country.	GPT_simple
		Their products are available for purchase nationwide.	GPT_gdex
icy	extremely cold / very cold	Icy hands.	WN
		The sweet aroma of the beans tickled nose as i held the steaming cup gratefully in my icy cold hands.	CHA
		The icy wind cut through my jacket, sending shivers down my spine as I hurried to find shelter from the bitter cold.	GPT_simple
		The pond's surface was icy, making it too dangerous for skating.	GPT_gdex
harden	make hard or harder / make or become hard or harder	The cold hardened the butter.	WN
		Wait for the glue to harden.	CHA
		The cold weather caused the ground to harden, making it difficult to dig.	GPT_simple
		Cooking the sugar and butter mixture will slowly harden into a delicious caramel.	GPT_gdex
enthalpy	(thermodynamics) a thermodynamic quantity equal to the internal energy of a system plus the product of its volume and pressure / a thermodynamic quantity equivalent to the total heat content of a system it is equal to the internal energy of the system plus the product of pressure and volume	Enthalpy is the amount of energy in a system capable of doing mechanical work.	WN
		The internal energy of a system like the enthalpy is a state property so it is fixed when the state of the system is specified.	CHA
		The enthalpy of a chemical reaction can be calculated by measuring the internal energy change of the system and accounting for the work done on or by the system through volume and pressure changes.	GPT_simple
		Industrial processes often involve calculating enthalpy changes to assess energy transfers within the system.	GPT_gdex
flatten	make flat or flatter / make or become flat or flatter	Flatten a road.	WN
		Peter combed his dark brown hair trying to flatten the back and sides but as usual it remained up turned.	CHA
		He used a rolling pin to flatten the dough before cutting out the biscuits.	GPT_simple
		He used a roller to flatten the dough before baking the cookies.	GPT_gdex
absent	go away or leave / go away or remain away	He absented himself.	WN
		But none of the other parties dared absent themselves.	CHA
		She was absent from the meeting, causing her team to work without her input.	GPT_simple
		She was absent from school yesterday due to a family emergency.	GPT_gdex
mass	a body of matter without definite shape / a large body of matter with no definite shape	A huge ice mass.	WN
		It was some sort of creature made from what can only be described as pure darkness its body a mass of swirling shadow.	CHA
		The scientist studied the mass of clay to determine its density and composition.	GPT_simple
		The asteroid was so massive that its gravitational pull affected nearby objects.	GPT_gdex
elbow	the part of a sleeve that covers the elbow joint / the part of the sleeve of a garment covering the elbow	His coat had patches over the elbows.	WN
		Under it she wore a crisp white shift whose sleeves puffed at the elbow.	CHA
		She rolled up her sleeves, revealing the worn fabric at the elbow where the white blouse had started to fray.	GPT_simple
		The tailor reinforced the elbow of the jacket to prevent wear and tear.	GPT_gdex
study	a room used for reading and writing and studying / a room used or designed for reading writing or academic work	He knocked lightly on the closed door of the study.	WN
		The glass she was leaning on was long enough to be in two rooms the kitchen and the living room with the study.	CHA
		She spent hours in her cozy study, surrounded by books and notes, preparing for her exams.	GPT_simple
		He spent hours in the study, surrounded by books, preparing for his upcoming exams.	GPT_gdex
liberian	of or relating to liberia or its people / relating to liberia or its people	Liberian ship owners.	WN
		He recorded the address before a liberian flag at his home.	CHA

WORD	DEFINITION	EXAMPLE	SOURCE
scan	an image produced by scanning / an image obtained by scanning or with a scanner	The Liberian government announced new regulations aimed at promoting sustainable development in the country.	GPT_simple
		His wife is an expert in Liberian cuisine, specializing in dishes from her homeland.	GPT_gdex
		You could see the tumor in the CAT scan.	WN
		You cant predict anything until he has seen the scan.	CHA
		I used a scanner to create a digital scan of the document.	GPT_simple
variance	an official dispensation to act contrary to a rule or regulation (typically a building regulation) / an official dispensation from a rule or regulation typically a building regulation	The doctor requested a scan to examine the patient's brain for any abnormalities.	GPT_gdex
		A zoning variance.	WN
		Notwithstanding his opposition the committee of adjustments approved the variance on april.	CHA
		The city council granted a variance to the property owner, allowing them to build a structure that slightly exceeded the height restriction imposed by the zoning regulations.	GPT_simple
		The architect requested a variance for the new construction project to deviate from the setback requirement.	GPT_gdex
backward	having made less than normal progress / having made less progress than is normal or expected	An economically backward country.	WN
		His volunteers used to visit each and every house to collect rice and other things just to give solace to the economically and socially backward persons.	CHA
		Despite his hard work and dedication, he felt like he was moving backward in his career due to the lack of opportunities for advancement.	GPT_simple
		The team's project fell backward due to unexpected delays in the production phase.	GPT_gdex
relation	a person related by blood or marriage / a person who is connected by blood or marriage a relative	He has distant relations back in New Jersey.	WN
		Perhaps there is comfort here for anyone who dreads the death of a close relation.	CHA
		My relation, Sarah, is my cousin on my father's side.	GPT_simple
